

RAPID INFUSION

69065 RAPID INFUSION

Rapid Infusion enables a liquid to be infused with different flavors in the shortest possible time. First, combine aromatic solids (e.g. herbs, spices, fruit) and a liquid (e.g. alcohol, oil, water, vinegar) in the iSi Whipper. By applying pressure into the iSi Whipper using an iSi cream charger, the flavor of the solids becomes infused into the liquid, which develops a unique taste.

By using iSi Rapid Infusion accessories for Rapid Infusion applications with the iSi Gourmet Whip or iSi Thermo Whip, you can easily reduce the pressure and collect the escaping foam or liquid in a container.
