

# RONER R PLUS

## 80016Plus Roner R Plus

Robustness and stability of all components. 4-digit display showing temperature and time. With countdown timer. High precision thermoregulating heating. Circulation fan. Max. working depth 16.5 cm. Optimised operation up to 50lt. Working temperature between 40°C and 115°C with precision of +/-0.3°C. All components are made of AISI 304 stainless steel.

### Technical data:

- 25 customisable cooking programmes.
- Delayed start; start-up programming from 10 minutes to 24 hours.
- Cooling system with automatic ventilation at the end of the cooking time, in case the Roner is left in water.
- 4-digit display for temperature and time.
- Countdown timer.
- Circulation fan for an even temperature.
- Maximum working depth of 16.5 cm.
- Optimum operation up to 50 litres.
- Operating temperature between 40°C and 115°C , with an accuracy of +/- 0.3°C.
- A motor circuit breaker that detects overvoltage and overheating.
- Power : 2000w. - 230v/50Hz.

### Format

Measurements: 21 x 11 x 10 cm

Packaging measurements: 45 x 34 x 25 cm

Weight: 5 Kgs.

Customs code: 8516.10.80

EAN: 8436537860121
