

RONER COMPACT 20 LT

80060 RONER COMPACT 20LT

The Roner Compact is the natural evolution of the Roner. It consists of a thermostat and bucket combined in a single device. A countdown timer function and a closed water circulation system have been added to ensure temperature stability.

Technical data

- Size: 26 x 37x 67 cm (width x height x depth)
- Power: 2100 W.
- Weight: 15 kg
- Temperature Control.
- Circulation pump.
- All elements in contact with liquids are AISI 304 stainless steel.
- Ambient temperature range: +5 to +85°C.
- Homogeneity +/- 1 %
- Setpoint error +/- 1%
- Time range: At start up: 1 to 24 hours.
- Performance: 1 minute to 99,9 hours.
- Voltage: 230 V/ 50 Hz.

Equipped with:

- Stainless steel container .
- Easy cleaning .
- Minimum water level control.
- Circulation pump.
- PT100 Temperature probe.
- Rear drain.
- Security thermostat.

Format

Packaging measurements: 80x52x40 cm
Weight: 18 kg

Custom code: 8419.89.98
EAN: 8436537860107
