

RONER R

80016 Roner R

Roner allows to cook precisely at a low temperature . This technique respects the natural structure of food.

Characteristics:

Robust & stable components.

4 digit display for temperature and time.

Countdown timer.

Circulation pump for homogeneous temperature.

Max working depth of 16,5 cms.

Optimal operation up to 50 litres.

An operating temperature of between 40 and 115o , at a precision of +/- 0,3C.

A motor circuit breaker that detects overvoltage and overheating.

It was made entirely of AISI 304 stainless steel to ensure hygiene and resistance to acids and salts, as well as excellent resistance to oxidation.

Power : 2000w. – 230v/50Hz.

Dimensions: 21 x 11 x 10 cm

Dimensions box: 45 x 34 x 25 cm

Weight: 4,5 Kgs.
