

NITRAL

80036 NITRAL

Special container designed by the Food and Science Foundation (ALICIA), for elaborations in which liquids at very low temperatures are used, such as nitrogen. Made entirely of stainless steel to avoid breakage. Rubber and Teflon inner lining to minimize liquid evaporation and temperature transfer.

Technical data

- Made of stainless steel to prevent cracks.
 - Inner liner rubber and Teflon to minimize evaporation of the liquid and temperature transfer.
 - Designed by Alicia foundation (Food and Science).
-

Format

- Size: 23,5 x 13 cm
 - Diameter: 18 cm
 - Capacity: 1,5 lt
 - Packaging measurements: 35 x 35 x 21 cm
 - Weight: 4 kg
-

Customs code: 7326.90.98

EAN: 8436537000145
