

C700 VACUUM PACKAGING MACHINE

C700-EUUK C700 VACUUM PACKAGING MACHINE

Take your culinary experience one step further with the Smart Vac function, which uses intelligent sensors to perform automatic and precise vacuum sealing, ensuring optimal results every time. Alternatively, the manual mode allows you to adjust the vacuum levels according to the needs of each preparation.

It includes an automatic marinating function with consecutive vacuum cycles and accessories for external vacuuming, expanding its possibilities for use in professional kitchens.

In addition, it offers easy access for oil changes and is compatible with smooth and embossed bags, providing versatility and ease of maintenance.
